B.S.A
Neuroscience —
University of
Texas 2020

Austin, TX

Bachelor of Science and Arts in
Neuroscience with a certificate in
a Liberal Arts great books
program. Pre-Medicine
Emphasis.

- Cumulative GPA 3.73/4
- University Honors –
5 Semesters
- ACT -33 cumulative
- SAT- 2050
- MCAT – 519 cumulative
(96th percentile)

EXPERIENCE

05.2021- Current

Medical Scribe • Diabetes and Glandular Disease Clinic

• I am a scribe for Dr. Akhrass and Dr. Vadakekalam. I chart their patient visits into the electronic medical records while observing their interactions with patients. I gain valuable insight into the relative medical terminology, medications and procedures related to endocrinology.

06.1.2020 – 03.2021

Supervisor • Supervisor of Colorado branch of anchor manufacturing • Kulstoff Composite Products

• Oversaw production of new type of anchor, STB. Oversaw training and management of the new production process and continuation of imbed anchor production.

8.15.2014- 06.1.2020

Employee • Manufacturer of Carbon Fiber Concrete Reinforcing Anchors • Kulstoff Composite Products

• One of four producers of a patented carbon fiber anchor design. Assisted in the expansion, advancement, and trainings for the production process

6.01.2018- 5.14.2020

Summer Fellow & Research Mentor • FRI Lab researcher • University of Texas- Supramolecular Sensors Lab

• I was one of four paid summer fellows for an undergraduate research lab. Helped further established research and began pioneering a new method to commercialize process. Then I continued research in the lab working on a new project regarding plant metabolite extraction and analysis.

01.2017- 12.2019

Volunteer • Dell Seton Medical Center • Austin Texas • Accrued over 150 hours

• A college volunteer at the new DSMCUT hospital in Austin. Helped guide, discharge, and provide general assistance to patients.

8.01.2017- 8.09.2019

Sierra Rider • Non-Profit Charity Cycling Team • Texas 4000

• A member of the 2019 team for a non-profit charity cross-country cycling team. Fundraised over \$5,000, volunteered over 50 hours, and cycled nearly 6,000 miles over 18 months.

6.2018- 8.2018

Maintenance Technician • Amistad Community Health Clinic

• I was one of two assistants to the maintenance supervisor to paint the gynecological wing, and to help fix various issues in the clinic

2.2017 – 5.2017 • Organizational & Program Support • Texas 4000

• Semester Intern at the office. In charge of paperwork for riders, updating the website for new routes, and other miscellaneous office tasks.

LEADERSHIP

- Experience with LC/MS Analysis, organic material extractions and differential sensing assays
- Worked with raw carbon fiber and two-part epoxy

Equipment and Gear Manager • Texas 4000 Sierra Team 2019 • One of three lead mechanics for a team of 83 Riders. Trained team and mechanics on bike repair. Outfitted a trailer to transport 28 riders' bikes and gear for a 70-day cross country bike trip.

Lab Mentor • FRI Research Lab • University of Texas • In charge of a team of 5 students. Group projects involve extraction procedure of metabolites in plants and establishment of baseline metabolome.
